

ŁOTWA SYSTEM

**Solar energy is installed  
directly on the tiles**

## Overview

---

How do solar tiles work?

Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof. Photovoltaic cells in solar tiles turn sunlight into direct current (DC) energy.

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

How do I install solar panels on a lightweight tile roof?

The best way to install solar panels on a lightweight tile roof is through a method called inset solar installation, also known as a “comp-out” installation. This technique removes the section of tile where the solar panels will be installed and replaces it with composite shingles before mounting the solar array.

Can a tile roof handle solar panels?

If you have a tile roof and are considering solar energy, you might be wondering whether your roof can handle solar panels. Tile roofs—especially lightweight cement or clay tiles—are beautiful and durable but also delicate. Unlike asphalt shingles, they can crack easily under pressure, which makes solar installation a bit more challenging.

## Solar energy is installed directly on the tiles

---

Solar roof tiles: Unleashing technical advantages and ...

Dec 1, 2024 · The majority of energy generation worldwide is currently based on fossil fuel-powered plants. These plants are significant contributors to global warming and climate ...

---

Solar Tiles: The Complete Buying Guide For Solar Tiles [2025]

Apr 21, 2025 · Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a ...

---

How are Solar Panels Mounted on a Tiled Roof?

1 day ago · In some cases, if the tiles are too brittle to touch, we use a technique called a "comp-out." We remove the tiles under the solar array entirely, install asphalt shingles in that square ...
