Solar module export for DDP

Overview

What is DPD export module?

DPD Export Module is designed for operators of Prestashop 1 e-shop. Linking your software to our system allows you easy and convenient transport order or printing parcel labels on your own.

What is DDP in international shipping?

As one of the 11 trade terms introduced by the International Chamber of Commerce (ICC) under the Incoterms 2020, DDP provides a structured approach to responsibilities, costs, and risks in international shipping. This article will explore DDP in detail, breaking down its processes, responsibilities, and benefits for buyers and sellers.

What is DDP & how does it work?

DDP is commonly used when the seller is familiar with local customs regulations and logistics in the buyer's country, ensuring a smooth delivery process. This Incoterm is favored for door-to-door delivery. Seller's Responsibility: The seller bears all risks and responsibilities until the goods are delivered to the agreed destination.

What is DDP Incoterm?

The DDP Incoterm is a highly buyer-friendly arrangement that simplifies international trade by placing maximum responsibility on the seller. From handling transportation and customs clearance to bearing all associated costs and risks, the seller ensures the goods reach the buyer without hassle.
