

Solar power satellite factory in Auckland

Overview

Is Kiwi solar launching a solar farm in South Auckland?

Auckland, New Zealand (NZ)-headquartered utility-scale and commercial rooftop solar installation company Kiwi Solar has announced its 13 MW Ardmore Solar Farm in South Auckland is now live, after a 5.5 month construction period.

Are utility-scale solar farms a good idea for New Zealand?

Utility-scale solar farms represent a great opportunity for New Zealand. They produce clean, reliable energy, offset Co2 emissions and will become an integral part of the power grid. Here is a selection of our most recent solar farm projects. Rooftop solar presents businesses with substantial benefits.

Who is Kiwi solar?

Welcome to Kiwi Solar, your trusted partner in shaping New Zealand's renewable energy future. As a proudly New Zealand owned and operated business, we specialise in developing, engineering, constructing, and maintaining solar farms and commercial/industrial rooftop projects across the country.

How can a solar array help a satellite fleet?

With each satellite fleet costing billions of dollars, this bottleneck needs to be solved. At Astrix we have developed a unique inflatable solar array for satellites, which dramatically increases the ease of generating power, reduces the cost of build and increases the functionality of satellites in space.
