

# **Solar power satellite factory in Cebu**

## Overview

---

Where will solar power be used in Cebu?

The electricity generated will be used within the Cebu plant, contributing to the reduction of grid power usage. This is the third location where we install large-scale solar power generation systems after two production plants in Thailand (Bang Pa-in Plant (Ayutthaya Prefecture) and Lopburi Plant (Lopburi Prefecture)).

What is the Philippines' first megawatt-scale floating solar facility?

The Philippines' first megawatt-scale floating solar facility in Cebu as seen in a August 2025 handout image. MANILA, Philippines — A floating solar power plant on a reservoir in Cebu has begun supplying energy to a copper mine, marking the country's first megawatt-scale deployment of the emerging technology.

Is CSP a good solar power system in Cebu?

CSP is suited for large-scale solar power plants and can produce significant amounts of electricity. In Cebu, various solar power solutions cater to different needs and preferences: Residential Solar Systems: These systems are designed for individual homes and small properties.

Which companies are advancing solar power solutions in Cebu?

Several companies and organizations play a crucial role in advancing solar power solutions in Cebu: Local Solar Providers: Companies such as Philergy, Solar Switch, and Solar Philippines are prominent players in Cebu's solar market. These providers offer a range of solar solutions, including system design, installation, and maintenance services.
