

# **Solar power satellite factory in Italy**

## Overview

---

What is the solar industry in Italy?

The Italian solar industry encompasses everything from residential rooftop installations to utility-scale solar farms, with companies specializing in various segments of the value chain. Italy's solar capacity has grown exponentially in recent years, with over 35 GW installed as of 2025.

Which solar panels are used in Italy?

LONGi has supplied panels for numerous Italian solar projects, including the innovative solar greenhouse installations in Sicily that combine agriculture with energy production. Their Hi-MO series modules have gained popularity among Italian installers for their high efficiency and reliability in various climatic conditions. 7. IBC SOLAR.

How big is Italy's solar capacity?

Italy's solar capacity has grown exponentially in recent years, with over 35 GW installed as of 2025. The government's National Energy and Climate Plan targets 70 GW of solar capacity by 2030, creating enormous opportunities for solar companies.

What is Europe's largest solar panel production facility?

Their 3Sun Gigafactory in Catania is set to become Europe's largest solar panel production facility, with a planned capacity of 3 GW per year by 2025. 2. Futura (formerly Falck Renewables)

## Solar power satellite factory in Italy
