

Solar power solutions factory in Denmark

Overview

Is solar PV expanding in Denmark?

Every quarter, the Danish Energy Agency publishes a solar PV inventory describing the status of the expansion of solar PV in Denmark. The latest version can be found below and shows a total expansion of solar PV in Denmark of more than 3.3 GW as of 1 July 2023.

Who is Danish renewables?

Danish Renewables is a sustainable energy company founded in 2017 by founder Esben Christensen in Copenhagen, Denmark, with a primary focus on the solar and wind energy sectors.

How does the factory use solar energy?

The factory uses solar energy and employs multiple energy saving approaches, including reusing the wasted energy during the production. Our efficient robot technology and modern finishing process ensures the highest level of precision and consistent quality products with minimal environmental impact.

Who are DSE solar components distributors?

DSE is the official distributor for some of the well known solar components producers like Fronius, ABB, Steca, MorningStar, Grundfoss, Victron Energy, Hoppecke etc. Based on our in-depth PV technology knowledge and insight in the solar components market, we are capable of selecting the right quality products without any compromise.
