

# Solar power station for home in Senegal

## Overview

---

Is a solar energy project in Senegal the biggest in West Africa?

Work on a solar energy and battery storage project in Senegal, touted to be the biggest in West Africa once it goes live, is set to begin next month after an EPC (Engineering, Procurement and Construction) contract for its development was recently signed. The Kolda project will encompass a 60MWp PV solar plant coupled with a 90MWh storage system.

When will a solar power plant be built in Senegal?

“This agreement paves the way for the construction to begin in May 2025, with the deployment of a 60MWp photovoltaic plant coupled with a 90MWh storage system.” Voltalia is to supply the PV infrastructure for the solar power plant, which will operate on Senegal’s national grid managed by SENELEC.

Is ten Merina a solar power project in Senegal?

This is Meridiam’s second solar power project in Senegal, delivering an additional reliable supply of low-cost and low-carbon electricity. Overall, Ten Merina is a significant contributor to Senegal’s installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people.

Which solar companies operate in Senegal?

3.2%. Attracted by the stable political environment, several notable local and international solar PV companies like Oolu Solar and Baobab+ operate in Senegal, using cash sales, pay-as-you-go (PAYGo), and partnerships with micro-finance institutions
