

Solar power with grid backup in Mauritania

Overview

This initiative will bring electricity to 40 localities in south-eastern Mauritania by connecting villages to mini solar farms hybridized with a backup generator. How will Mauritania's new solar power project help agri-food industry?

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines. The project will also support value-creating activities, especially in the food cold chain and agri-food processing.
