

Solar powered house generator in Auckland

Overview

What is a solar power generator?

A solar generator, also known as a portable power station, stores energy from sunlight or the grid for emergency home backup power or off-grid activities, such as camping. How do solar generators work?

.

What is a Jackery solar generator?

Jackery global top-selling solar generators combine portable power stations with solar panels to convert the sun's energy into electricity to power your appliances during camping, RV, and as a backup power supply for home and emergency.

Why do you need a generator in New Zealand?

When it comes to ensuring that you have a reliable source of power, especially in times of emergencies or when off the grid, having a quality generator can be a game-changer. In New Zealand, where power outages due to weather events or other reasons can occur, having the best generator is essential for peace of mind.

Can a solar generator power a home during a blackout?

In an era when natural disasters and storms take out power more frequently, solar generators are an ideal solution to power your home. If you're looking for a clean, reliable way to power your home during a blackout and is compact enough to take camping, then portable solar generators may be ideal for you. What is a solar power generator?
