

Solomon Islands solar Panel Greenhouse Manufacturer

Overview

How many solar homes are there in the Solomon Islands?

"Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems," said Mr Aimaea.

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

Does the Solomon Islands have green farming and development practices?

Through the diligence of the government and projects run by independent organizations the Solomon Islands has implemented green farming and development practices and hopefully will continue to do so in the future.
