

# South African Folding Container Low-Pressure Type for Mining

## Overview

---

Who are absolute containers?

We at Absolute Containers are the industry leader in South Africa, offering an unparalleled range of standard and bespoke conversions across an equally broad range of industries, including mining. We invite you to view some of these in more detail or contact us for more information about mining shipping containers.

How can mining shipping containers help the mineral exploitation industry?

The mineral exploitation industry faces numerous challenges, but mining shipping containers are helping to solve some of them. In their basic form, these rectangular metal boxes are an ideal means to transport heavy loads, like equipment and mineral waste.

What is the difference between a shipping container and a mining site?

However, the mobile nature of mining precludes more permanent concrete or brick structures. By contrast, steel shipping containers are designed for easy transportation and have an average lifespan of around 25 years. The following types of accommodation are found on most sites. Mining equipment, vehicles, and tools are expensive.

What is a foldable container?

The foldable design saves space and reduces transport costs. Strong, secure, and easy to install, it suits various temporary uses. A modular, collapsible structure designed for easy assembly and disassembly. The container is stackable & Easily transportable. The design expands space for comfort and versatility.
