South American Solar solar container lithium battery Company

Overview

What is the largest battery storage project in South America?

One of the largest battery storage projects in South America is being built in the Chilean Atacama desert. It complements the existing 220 MW PV power plant Diego de Almagro Sur operated by the electric utility company Colbún S.A. Since 2022, the plant has been supplying the region with solar power using SMA technology.

How is solar energy stored in Latin America?

“Solar power is stored in a grid-supportive manner and is used 24/7 to stabilize the grid. This underscores SMA’s commitment to the expansion of a sustainable and secure energy supply in Latin America.” The large-scale storage system is being built in the commune of Diego de Almagro in the Atacama region.

Is South America a key player in the lithium-ion battery industry?

As the global demand for electric vehicles (EVs) and renewable energy storage grows, South America is emerging as a key player in the lithium-ion battery industry. The region is home to some of the world’s largest lithium reserves, particularly in Argentina, Bolivia, and Chile—often referred to as the “Lithium Triangle.”.
