

Southern Europe 80W Solar Street Light

Overview

Are solar street lights made in Germany?

Yes, all of our solar street lights, brackets, and special solutions are developed and manufactured by Geo-Technik in Germany. Our in-house metalworking shop in Großkrotzenburg, Hesse, enables us to guarantee the highest quality standards and offer customized solutions for our customers. How is a solar street light installed?

.

How do solar street lights work?

Solar street lights work by absorbing solar energy via solar panels during the day and storing it in a LiFePo 4 or Solar AGM battery. At night, this stored energy is used to power the street lighting. Our microprocessor controls switch the lighting on automatically when it gets dark and off again at sunrise.

Does Geo-Technik manufacture solar street lights?

Does Geo-Technik manufacture the solar street lights itself?

Yes, all of our solar street lights, brackets, and special solutions are developed and manufactured by Geo-Technik in Germany. Our in-house metalworking shop in Großkrotzenburg, Hesse, enables us to guarantee the highest quality standards and offer customized solutions for our customers.

Are solar street lights a good idea?

Solar street lights use solar energy to generate electricity, making them extremely energy-efficient and environmentally friendly. They help to reduce electricity costs and CO2 emissions. They are also independent of the power grid and ideal for remote areas without existing infrastructure.
