

Spain Barcelona invests in solar glass

Overview

Why should you invest in solar in Spain?

There has never been a better time to invest in renewable energy and Solar in Spain is now able to offer a complete Key-in-Hand solution including finance options. Many new types of loans have recently been introduced to help businesses and homeowners invest in solar energy.

Does Mes Barcelona install photovoltaic panels?

MES Barcelona also installs photovoltaic panels for residents' associations. The funders of the photovoltaic installation sell the energy to the building's owners, and at the end of the energy sale contract, ownership of the panels is transferred to the building owners at zero cost.

What is Mes Barcelona doing?

MES Barcelona has led to public private partnership projects at the Museu de Ciències Naturals de Barcelona, in the Fòrum Park, at the UNED, at the Taller Escola Barcelona, and at Mercabarna, which has become the largest rooftop photovoltaic plant for self-consumption in the Peninsula.

What is the Catalan Green Energy Initiative?

The aim of the initiative is to promote green energy generation in the Catalan capital, with 8 projects currently in progress to install photovoltaic panels on large buildings.
