

Sudan Uninterruptible Power Supply Purchasing Company

Overview

What are the opportunities in the Sudan power market?

Due to the highest installation capacity, the hydropower segment held a significant market share in 2021 and is likely to see considerable market growth during the forecast period. Sudan has announced to build four nuclear power plants by 2030 to fill its energy gap. This is likely to create several opportunities in the Sudan power market soon.

Who are the key players in the Sudan power market?

The Sudan power market is consolidated. Some key players in this market include Sudanese Thermal Power Generating Company, Sudanese Electricity Distribution Company, Siemens Energy AG, Ram Energy, and Dal Group. In March 2021, Siemens Energy AG was awarded to supply grid stabilization services to Merowe Hydropower Plant near Northern Sudan.

Why is the Sudanese electricity market growing?

The Sudan government is actively promoting the power sector by increasing electricity access in all parts of the country. Therefore, the demand for grid-connected electricity has been significantly increasing in recent times and is expected to drive the market during the forecast period.

What is happening in Sudan's electricity sector?

The country has seen a drop in electricity demand due to the imposed lockdown restrictions, leading to lower electricity requirements in various commercial and industrial places. The Sudan government is actively promoting the power sector by increasing electricity access in all parts of the country.
