Swiss New Energy Storage

Overview

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

What is the future of electricity storage in Switzerland?

One important pillar of this strategy is the further development of electricity storage capacity in Switzerland. In the next years, three large-scale pumped hydro storage power plants will be connected to the grid. The first, the Limmern pumped storage plant (1 GW), should become operational in 2016.

Where is the largest battery storage system in Switzerland?

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use our storage system to provide energy flexibility.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

Swiss New Energy Storage

Swiss Energy Storage Project Bidding: Key Insights for 2025

You know, Switzerland's energy landscape is at a crossroads. With nuclear phase-outs accelerating and renewable targets tightening (40% clean energy by 2035), the country's ...

Energy Vault deployed first energy storage installation in Switzerland

Dec 4, 2025 · Energy Vault announced its formal entry into the Swiss market with the launch of FlexGrid, a product designed for commercial and industrial customers based on a new ...

Swiss start-up uses gravity to store electricity

Jun 28, 2024 · Tokyo (SCCI) - The young Swiss company Energy Vault has developed and built the first commercial battery storage system for electricity based on gravity. Such systems are ...

Switzerland: EWS and MW Storage expand battery unit to ...

May 29, 2024 · The project in Ingenbohl, Switzerland. Image: EWS AG. Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system ...

Demand for home solar energy storage rising ...

May 15, 2025 · Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery ...

Switzerland's EUR2 Billion Energy Storage Project: Powering the ...

Jun 4, 2025 · But with Switzerland's track record in balancing ecology and innovation, this could set new standards for sustainable energy storage. As European countries scramble to meet ...

Demand for home solar energy storage rising in Switzerland

May 15, 2025 · Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery systems in the country.

Energy Vault Launches FlexGrid in Switzerland With B-VAULT ...

4 days ago · Energy Vault Holdings has announced its formal entry into the Swiss market with the launch of FlexGrid, a product designed for C& I customers based on a new configuration of its ...

Switzerland: EWS and MW Storage expand ...

May 29, 2024 · The project in Ingenbohl, Switzerland. Image: EWS AG. Utility EWS AG and developer MW Storage have completed the expansion of a ...

GSO's new energy container storage lands in the European ...

GSO's Swiss high-voltage storage plant reduces energy costs via smart tariff optimization, advanced BMS, and safety systems. Delivered in 3 months.

Large-scale battery for Switzerland: 65 megawatt hours of ...

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

Switzerland Energy Storage Market 2024-2030

Apr 25, 2025 · In Switzerland Energy Storage Market, Morand has launched a hybrid ESS that combine the characteristics of an ultracapacitor with those of a chemical battery.

Swiss start-up uses gravity to store electricity

Jun 28, 2024 · Tokyo (SCCIJ) - The young Swiss company Energy Vault has developed and built the first commercial battery storage system for ...
