Swiss Zurich solar Grid-connected Inverter Company

Overview

Who makes Swiss solar modules?

SSWISS GROUP AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards . As an internationally recognized premium brand.

Why should you choose Swiss Solar AG?

The state of the art design of solar the packaging and solar modules makes the product emotionally attractive to the most demanding customers. Stylish packaging sets the product apart from other producers. To be part of SWISS SOLAR AG is to always be ahead.

How does a grid-forming inverter work?

Researchers at ETH Zurich have patented a grid-forming inverter algorithm that stabilizes frequency while protecting devices from damage by independently controlling frequency, voltage, and current. From pv magazine Germany.

How does a power inverter work?

The patented algorithm operates the inverter as a voltage source, which is critical when short circuits and voltage drops complicate grid operation. Traditionally, power plants using steam turbines to drive generators – particularly nuclear, coal-fired, and gas-fired plants – have set and maintained grid frequency.
