

ŁOTWA SYSTEM

The best solar panel manufacturer in Marseille

Overview

Are SunPower solar panels made in France?

In its second decade of service, SunPower has consistently strived for innovation, delivering a diverse range of solar panels made in France. These include their signature Maxeon® and Performance series panels, recognized for their top-tier efficiency and robust design.

Are solar panels safe in France?

In France, solar panels and inverters must comply with specific standards and certifications to ensure their safety and performance. This includes standards set by the International Electrotechnical Commission (IEC), such as IEC 61215 for crystalline silicon solar panels and IEC 61646 for thin-film solar panels.

Does France have a solar market?

However, challenges such as land use disputes and public acceptance of solar projects can hinder development. Market relevance extends beyond national borders, as France is part of the larger European solar market, which is influenced by EU policies and global supply chain dynamics.

Where are our solar panels made?

Since 2010, we have developed our solar innovations at our R&D center in Marseille, France. Not all our panels are produced in France (yet). We select the world's best factories based on strict environmental and social criteria. Our panels are certified low-carbon. It's the least we can do.
