

Three energy storage power stations in Cebu Philippines

Overview

Is Aboitiz Power Building a hybrid battery energy storage system in Cebu?

MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas.

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.

Will Aboitiz Power build a hybrid battery energy storage system in Mactan?

Aboitiz Power Corporation (AboitizPower), through its subsidiary East Asia Utilities Corporation (EAUC), is set to construct a 30-megawatt (MW) hybrid Battery Energy Storage System (BESS) within the Mactan Economic Zone, reinforcing efforts to improve grid reliability in the Visayas region.

What is Central Visayas energy storage system?

Slated for commissioning in the first half of 2026, the facility is one of the first large-scale energy storage systems in Central Visayas. It aims to support rising power demand from industries and businesses in the area and enhance grid stability amid the energy transition.
