Have any questions?

.

What does a battery cabinet power?

Battery cabinets are designed to hold batteries used to power an uninterruptible power supply (UPS) system. In the event of a power disruption or outage, the UPS system ensures that your devices continue to operate from the energy stored in the batteries in the battery cabinet.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

How to choose UPS battery cabinets?

Furthermore, the cabinets need to offer removable hinged doors so that the UPS system can be easily accessed. Doors need to be locked for safety and security. UPS Battery Cabinets have to be designed to house most front terminal batteries. Your UPS Battery Cabinets should have removable side panels so that cables can be easily installed.
