

Underground energy storage device in Barcelona Spain

Overview

Why do we need energy storage systems in Spain?

Energy storage systems in Spain are a key element in the fight against climate change, as they help us to address the challenge of the energy transition. These systems make renewable energy production more flexible; and therefore help us to guarantee its integration into the Spanish electricity system.

What is underground energy storage (UES) technology?

Underground energy storage (UES) technology will provide a technical solution for renewable energy storage, as Spain also has a key geostrategic position and is home to leading companies, universities, and research organizations in underground works, electricity, hydrogen, electrolysis, geology, mining, and renewable energy.

What is Spain's energy storage program?

For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long-term stability and political support. Spain has launched a €700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5–3.5 GW of capacity.

How much money will Spain spend on energy storage projects?

Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive tendering to support large-scale energy storage projects in an effort to improve grid flexibility and integrate more renewables. Vanadium redox flow battery installed at the Son Orlandis solar farm in Mallorca.

Underground energy storage device in Barcelona Spain

Spain Energy Storage Program Launches with EUR700 Million in ...

Jun 3, 2025 · Spain has launched a EUR700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5-3.5 GW of capacity. The initiative, ...

Spain Energy Storage Program Launches with ...

Jun 3, 2025 · Spain has launched a EUR700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy ...

Spain launches EUR700 million support scheme ...

Jun 2, 2025 · The Ministry of the Environment of Spain has launched its latest financial support scheme for energy storage, aiming to kickstart 2.5 ...

Current situation and challenges of energy storage in Spain

Aug 1, 2025 · Energy storage has become a key piece of the electrical future in Spain, amidst the advance of renewable energies and the progressive withdrawal of nuclear generation. ...

Spain's EUR700 Million Plan to Boost Energy ...

Jun 3, 2025 · Spain's EUR700M plan adds 2.5-3.5 GW of energy storage to boost renewables, cut emissions, and strengthen the grid.

Spain launches EUR700 million support scheme for energy storage

Jun 2, 2025 · The Ministry of the Environment of Spain has launched its latest financial support scheme for energy storage, aiming to kickstart 2.5-3.5GW.

Barcelona Power Plant s Off-Grid Energy Storage System A ...

Why Off-Grid Energy Storage Matters in Barcelona As Spain accelerates its transition to renewable energy, Barcelona's power plants are leading the charge with innovative off-grid ...

Energy storage in Spain

Energy storage systems in Spain are a key element in the fight against climate change, as they help us to address the challenge of the energy transition. These systems make renewable ...

Call for applicants to Spain's EUR700m large-scale energy storage ...

Jun 2, 2025 · Standalone and renewables-plus-storage battery projects can apply for up to 85% co-financing, along with pumped hydro and thermal energy storage sites.

Call for applicants to Spain's EUR700m large ...

Jun 2, 2025 · Standalone and renewables-plus-storage battery projects can apply for up to 85% co-financing, along with pumped hydro and thermal ...

Current situation and challenges of energy ...

Aug 1, 2025 · Energy storage has become a key piece of the electrical future in Spain, amidst the advance of renewable energies and the progressive ...

Spain's EUR700 Million Plan to Boost Energy Storage and ...

Jun 3, 2025 · Spain's EUR700M plan adds 2.5-3.5 GW of energy storage to boost renewables, cut emissions, and strengthen the grid.

Spain offers EUR 700m in aid for large-scale ...

Jun 2, 2025 · Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive ...

Spain offers EUR 700m in aid for large-scale energy storage ...

Jun 2, 2025 · Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive tendering to support large-scale energy ...

The project promotes the harness of the current national networks of gas and electricity infrastructures towards the necessary transformation into a 100% renewable distribution ...

UNDERGY

Underground energy storage (UES) technology will provide a technical solution for renewable energy storage, as Spain also has a key geostrategic position and is home to leading ...
