# Uninterruptible Power Supply for Industrial Use in the Cook Islands

## Overview

---

What type of plug does Cook Islands use?

Cook Islands uses Type I electrical outlets with standard voltage of 240V and 50Hz frequency. If your device plugs don't match Cook Islands's standards, we recommend purchasing suitable travel adapters in advance to ensure proper use. What power plug types are used in Cook Islands?

Do I need a power adapter for Cook Islands?

Yes, traveling to Cook Islands requires a power plug adapter. Cook Islands uses Type I electrical outlets, which may not be compatible with your device plugs. We recommend purchasing universal adapters that support Type I plugs. Do I need a voltage converter for Cook Islands?

Cook Islands's standard voltage is 240V with 50Hz frequency.

What is the standard voltage in the Cook Islands?

The standard voltage in the Cook Islands is 240V, with a frequency of 50Hz. Make sure your electronic devices can handle this voltage and frequency. It is advisable to carry an I-type plug adapter for use with local sockets. Check if your phones and other devices require a voltage converter to avoid damage.

Why should you choose SCU power supply for industrial use?

SCU provides industrial uninterruptible power supply for modern manufacturing. With super power grid adaptability and load capacity, higher protection level and multiple operation modes, our UPS for industrial use can guarantee the power quality of key loads. Contact SCU now!
