

# **Uninterruptible power supply prices for domestic use in Austria**

## Overview

---

How much does electricity cost in Austria?

The average price of electricity in Austria, in December of 2022, has been 0.237€ per kilowatt hour. Electricity price has increased € 0.0121 kWh, 5.38% since the last semester. Meanwhile, the average price of electricity without taxes in Austria in that period was € 0.209 per kilowatt hour, compared to € 0.1579 kWh in the previous semester.

Is Austria a good example of a modern electricity system?

With one of the highest shares of renewable electricity in Europe, a growing network of dynamic tariffs, and smart metering pushing energy innovation, Austria is setting an example for how a modern electricity system can blend sustainability, flexibility, and consumer empowerment.

What is the energy sector like in Austria?

Austria's energy sector is predominantly characterized by a diverse mix of sources, with a significant emphasis on renewable energy. The country has made substantial progress in transitioning towards a more sustainable energy system.

Can Austria achieve 100% renewable electricity?

Austria's 2030 goal of 100% renewable electricity is in sight. The government's Renewable Expansion Act (EAG) is fueling this growth, aiming to add 27 TWh of green energy annually by the end of the decade. That means more solar rooftops, wind turbines, and local energy communities.
