

# **United Arab Emirates Containerized Generator BESS**

## Overview

---

Will the UAE deploy 300mw/300mw of Bess capacity by 2026?

It follows EWEC's recommendation made this time last year that the UAE should deploy 300MW/300MWh of BESS capacity by 2026. It didn't reveal when it hoped the 400MW (MWh capacity undisclosed) would come online, so it's not clear whether this is part of a longer-term target or whether its forecasted needs have increased.

What are the advantages of Bess vs traditional grid storage?

Othman Al Ali, CEO of EWEC, said: "Compared to traditional grid storage solutions, BESS offers unmatched advantages, including increased flexibility, scalability, cost-effectiveness, and improved efficiency.

Is Dubai building a 250MW PHES plant?

Dubai Electricity and Water Authority (DEWA), a utility in the neighbouring Emirate of Dubai, is building a 250MW PHES plant for a reported 2024 operation.

How do I submit an EOI for a 400MW Bess project?

Interested parties should submit their EOI to [ewec.bess@ewec.ae](mailto:ewec.bess@ewec.ae), after which EWEC will issue a request for qualifications to parties wishing to proceed to the next stage. Utility EWEC has invited developers to submit expressions of interest (EOI) for a 400MW BESS project in the UAE.
