

Upgrade solar panels

Overview

How do I upgrade my solar system?

You are probably weighing up three alternative approaches to your solar upgrade: 1) Add more panels to your existing system – using your original inverter. 2) Get a new, bigger inverter and add more panels too. 3) Get a whole new separate solar system installed next to the original.

Should I upgrade or expand my solar panel system?

Upgrading and expanding your existing solar panel system could be your answer. When it comes to solar energy, maximizing efficiency and optimizing performance are crucial.

How much does it cost to upgrade a solar panel?

The typical range for labor costs to replace and upgrade a solar panel is \$125 - \$3,000, with an average upgrade taking about 8 to 10 hours to complete. Cost data is based on actual project costs as reported by 14,319 HomeAdvisor members. ZIP Code and National Average are not directly related to the cost of upgrading a solar panel.

How do I add solar panels to my existing system?

If you want to add solar panels to your existing system, the first step is to contact your original installer or another certified PV professional. During your consultation, you can determine which upgrades will be necessary to accommodate the new panels. Is it worth adding more solar panels?
