

# **Victoria Off-Grid Solar Container 2MW Replacement Solution**

## Overview

---

What is an off-grid solar energy system with battery storage?

An off-grid solar energy system with battery storage offers a range of benefits for remote businesses, particularly those who are in regional Victoria. We design and install larger-scale off-grid systems based on your power usage and requirements. The commercial level stand alone solar systems start from 40kWh storage capacity.

What is the capacity of a commercial off-grid Solar System?

The capacity of large home off-grid solar systems varies between 18-32 kw. That includes solar panels, racking, solar batteries and an inverter charger controller all combined in a plug and play system ready for installation by SAA-accredited installers. 4. Commercial Off-Grid System.

What is a large home off-grid Solar System?

**Large Home Off-Grid System** This system is the most popular and widely used off-grid or stand-alone solution among consumers. This is most suitable for a standard three, four-bedroom home, stations, farms and small business. The capacity of large home off-grid solar systems varies between 18-32 kw.

Who can use GES energy off-grid?

GES Energy provides off-grid solutions for clinics, retail companies, cottage industries, agriculture businesses, telecoms, offices, and other commercial entities. An off-grid solar energy system with battery storage offers a range of benefits for remote businesses, particularly those who are in regional Victoria.
