Victoria Solar Street Lights

Overview

Can solar LED street lights be used in Australia?

Thanks to Australia's abundance of natural sunlight all year round, solar LED street lights can be used across the country including for pathway solar lighting, street poles for residential areas or for horse arena lighting. Ideal for both regional and metropolitan projects, these offer easy installation, removing the need for trenching.

What is solar street lighting?

The advances in Solar street lighting technology means that customers can reliably power high or low powered solar street lighting in any weather condition anywhere on the globe. It's the perfect alternative to mains powered lighting giving the same lighting outputs and reliability.

Are solar street lights sustainable?

Transform your outdoor spaces with MOMA Solar's innovative solar powered street lighting solutions. Our solar street lights are designed to withstand Australia's challenging climate, offering consistent performance and reliability. Choose solar LED street lights for sustainable and efficient lighting, perfect for even the harshest conditions.
