Warsaw Power Grid Company

5g base station

Overview

How many 5G stations are there in Poland?

A network of 100 transceivers will be operating in 7 Polish cities - Warsaw, Gdansk, Katowice, Lodz, Poznan, Szczecin and Wroclaw. The second stage of Plus 5G network development in Poland will be to provide coverage for the entire area of Warsaw and the towns and places around it, with over 600 additional 5G stations being constructed.

When will 5G start in Poland?

On Monday, May 11, Plus will launch the first in Poland 5G network using the spectrum from the 2.6 GHz TDD frequency band. A network of 100 transceivers will be operating in 7 Polish cities - Warsaw, Gdansk, Katowice, Lodz, Poznan, Szczecin and Wroclaw.

Does plus offer a 5G network in Poland?

The offer already includes smartphones and routers which support 5G technology in the 2.6 GHz band, while further equipment from leading global manufacturers will be successively added to the sales offer in May and June. The 2.6 GHz TDD network is the first step en route to Plus's nationwide 5G network coverage in Poland.

Are 5G network operators motivated to cooperate with the power system?

On the one hand, 5G network operators are highly motivated to cooperate with the power system in energy matters, given that the numerous gNBs with their high energy consumption result in significant electricity bills that can be troublesome for the operators . .
