

Overview

What is the ASEAN Power Grid (APG)?

Ensuring a secure and stable electricity supply is critical, and the ASEAN Power Grid (APG) aims to achieve this through regional energy integration, enhanced grid infrastructure, and a unified power market.

Which countries are preparing for energy storage deployment?

Market dynamics, technical developments and regulatory policies that could be decisive for energy storage deployment in Australia, Mainland China, Malaysia, Singapore, South Korea, Taiwan, Thailand and Vietnam. This white paper explores the opportunities, challenges and business cases.

Can grid-scale energy storage improve revenue streams?

New analysis of business cases for grid-scale energy storage highlight opportunities to maximize multiple revenue streams and optimize projects.

How to improve coordination between APG partners in ASEAN?

Setting up of a Project Management Unit (PMU) within ASEAN Centre for Energy to improve coordination between APG partners. Develop a stepwise roadmap to shift the APG from study stage to implementation along with the viable financing frameworks.
