

# **What are the energy storage cabinet manufacturers of Capital Heavy Industry**

## Overview

---

How much did CATL invest in the National electrochemical energy storage system?

On June 22, 2024, CATL announced its involvement in the National Electrochemical Energy Storage System Construction Project (Phase I). With a total investment of approximately 3 billion yuan (around \$415 million USD), the project will establish an “one center and four bases” model.

Why did ABB invest in gridbeyond?

GridBeyond’s platform will enable real-time energy optimization, demand-side response participation, and access to new revenue streams in global energy markets for ABB’s BESS deployments. Last year, ABB made a strategic minority investment in GridBeyond to expand its energy storage solution portfolio. Collaboration with Tallarna.

Why is Panasonic a leading energy storage company?

Thanks to a wide and varied portfolio of solutions, Panasonic has positioned itself as one of the leaders in the energy storage vicinity. Panasonic is one of the industry’s top names due to its advances in innovative battery technology alongside strategic partnerships and extensive experience in manufacturing high-quality products.

Will energy storage capacity expand by 2030?

According to the International Energy Agency (IEA), to meet the increasing global energy demand, storage capacity must expand to 1,500 gigawatts (GW) by 2030. It also projects that 90% of this should come from batteries alone. However, current trends in the energy storage industry are creating a different picture.
