

# **Where are the Gaborone solar PV sites**

## Overview

---

What is the 80 MW Gaborone solar project?

The “80 MW Gaborone solar project” was a 5 year implementation project comprising the implementation of 7 solar PV projects and the construction of a local PV panel assembly factory. The services rendered for the “80 MW Gaborone solar project” here: .

How much does LCOE cost in Gaborone?

The levelized cost of energy (LCOE) of the projects will range between \$0.08 and \$0.10/kWh. The projects will be located in areas like Gaborone, Ramotswa, and Lobatse. The names of the other off-takers will be disclosed once the PPAs are signed.

Is Botswana a good country to invest in solar energy?

Botswana had the goal to achieve 25% renewables by 2030 and the need to increase installed generation capacity in the medium term and had also one of the best solar resources in the world and has currently generation units in its portfolio with running costs higher than the cost of solar energy, as is the case of the diesel Orapa unit.

How many solar projects are in the pipeline?

The plants are both scheduled to be completed by the end of August. “Currently, we have 30 MW in the pipeline of 25 to 35 individual grid-tied solar projects of about 400 kW, some being bigger and others slightly smaller,” Kofi Owusu Bempah, CEO of Pash Global, told pv magazine.

## Where are the Gaborone solar PV sites

---

Scatec switches on the first utility scale solar ...

Mar 13, 2025 · The solar power plant is located in the Mmadinare District, close to the former mining town of Selebi-Phikwe, 400 kilometres ...
