

# **Where is the grid-connected location of the Paris solar container communication station inverter**

## Overview

---

Will 78 kWp solar power Paris Olympic Village?

Energy World's largest, 78 kWp floating solar plant powers Paris Olympic village The 78 kWp solar installation will provide clean energy to the Olympic and Paralympic Square, showcasing its flexibility and ease of setup.

Updated: Aug 07, 2024 08:04 AM EST.

Why is a 78 kW photovoltaic power plant docked on the Seine?

Transported 900 metres along the Seine, a 78 kW temporary photovoltaic power plant has docked at the Athletes' Village to meet the needs of the Olympic and Paralympic Place for renewable electricity consumption.

Where is the world's largest floating and mobile solar power plant located?

In a groundbreaking move for sustainable energy, the world's largest floating and mobile solar power plant has been unveiled along the banks of the Seine in Paris. This state-of-the-art photovoltaic installation has been leased specifically for the Paris 2024 Olympic and Paralympic Games by EDF ENR, a subsidiary of the renowned energy company EDF.

Did you know Île-de-France has a photovoltaic power plant?

In an interview with PV Magazine France, Franck Chauveau, EDF's Director of Major Project Development for Île-de-France, described this achievement, stating, "This is the first time in the world that we have sailed a photovoltaic power plant."
